

LONDON **SOUND** GALLERY

CONCERT VIEWING INSTRUCTIONS

In order to watch the concerts—both live or on demand from the date of first broadcast until 1st January 2021—you will need to purchase a ticket from our streaming platform, Tidze: london-sound-gallery.tidze.com.

After purchase, you will be invited to create an account with Tidze – this is optional. If you create an account, your digital ticket(s) will be securely stored and available to watch on demand from date of broadcast until 1st January 2021.

You will also receive an email that contains your digital ticket: this is a unique link for you and should not be shared. On the day of broadcast, simply click this link to watch the performance.

If you click the digital ticket link before the broadcast has started, you will be presented with a waiting screen. You can wait on this page and you will be automatically allowed into the event when it is ready to begin.

After the event has completed, using the digital ticket link again will allow you to watch on demand. For security reasons, you will be emailed a unique code that you must enter to gain access.

During the live broadcasts, you can interact with the artists using the Live Chat feature.

For further support, please email lsg@thegesualdosix.co.uk.
